

Topaz on Tour: Kilvrough 2022

Last week, Topaz class has a fabulous trip to Kilvrough Manor on the Gower in Wales. We were lucky enough to experience a wide range of activities from den building and orienteering to climbing and rock pooling. The runaway favourites, however, were the caving and body-boarding experiences. For some in the class (pupils and teachers alike) it was the first time they had been able to participate in activities like this.

The food was great with the sandwiches and butter going down so well that the butter got its own song! We were lucky that the weather was kind to us and meant that we were able to do everything we had planned and hardly needed our waterproofs!

The children were excellent and became increasingly self-confident and independent as the week went on. During reflection time when we returned, the children spoke about how they had learned to trust other people; not to let being scared of something get in your way and that they are able to achieve anything they put their mind to.

This was a brilliant trip and the children were a credit to the School. All of the staff involved were blown away by the maturity and dynamism of everyone. It truly was a trip to remember!
