

# Clanfield CE Primary School

Dear families,

26.06.2020

It's been a glorious week in school with the sun shining at last. This has meant we've been able to take a lot of our learning outside and we hope you've had the same opportunities at home too.

## Relationships week

As part of our Managing Relationships strand of the curriculum, this week the focus both in school and at home has been about nurturing positive relationships. The children have produced some beautiful artwork and poems and engaged in activities to promote and discuss what friendships and relationships mean to them. Can you spot some of your work?

Love is....

- Having trust in someone
- Friendship and happiness
- Caring about other people
- Having a good heart
- Making people feel better
- Being a better person
- Having some ones back through tough times
- Believing you can do anything
- Realizing what people are going through
- Respecting other people

## Water Play Day!

With the glorious weather this week, we thought it best not to miss an opportunity to get the paddling pool out in school! This was a real treat for the children who have been working so hard all week. We had fun splashing about and the children took great delight in soaking Mrs Smith and their teachers!

## End of Year ODBE Church Service

Sadly, ODBE events have been suspended during the Covid-19 lockdown, which has included our popular Year 6 service. As the school year comes to an end, ODBE are creating a special online Year 6 service, led by Bishop Colin which will be available in July. There is a special [Year 6 Service webpage](#) with background and activities though which you can explore some of the themes of the service.
